ANOTATSIYA

Bugungi kunda dasturlashning tobora rivojlanib borishi sabab barcha fanlar ushbu sohaga murojaat etmoqdalar. Maqolada dasturlashning bir qismi bo‘lgan if-then qoidalarini izlash uchun lokal metrikalarni qurish haqida so‘z boradi.

Kalit so‘zlar: dasturlash, if-then, lokal metrika, Chebishev metrikasi, masala, hisoblash eksperimenti.

ABSTRACT

In connection with the growing development of programming, today all disciplines are turning to this area. This article discusses building local metrics to find if-then rules that are part of programming.

Keywords: programming, if-then, local metrics, Chebyshev metrics, problem, computational experiment.
