ANNOTATSIYA

Maqolada o'quv jarayonida matematik paketlardan foydalanishning dolzarbligi ko'rib chiqiladi. Universal matematik paketlar, o'quv jarayonining barcha bosqichlarini takomillashtirish uchun keng imkoniyatlarni taqdim etadi. Shuningdek, matematik paketlardan foydalanish bilan bog'liq muammolar va bu muammolarni hal qilish usullari qayd etilgan.

Kalit so'zlar: matematik paketlar, axborot texnologiyalari, CMT, Maple.

ABSTRACT

The article examines the relevance of using mathematical packages in the educational process. Universal math packages provide new broad opportunities for improving education at all, without exception, its stages. Also noted are the problems associated with the use of mathematical packages and ways to solve these problems.

Keywords: mathematical packages, information technologies, SCM, Maple.
