ANNOTATASIYA

Maqolada organik kimyo darslarida o'quvchilarga ekologik mummolarni misollar asosida keltirib o'tish va uning yechimlariga erishish yo'llarini ko'rsatish, ekologik ta'lim tarbiya mohiyatini asoslash va uni organik kimyodan noan'anaviy masalalar bilan ko'rib chiqish keltirilgan. Bu borada olib borilgan ishlar organik kimyo-ekologik integatsiyasi ta'lim tamoyillar asosida ko'rib chiqilgan.

Kalit so'zlar: organik kimyo, muammoli masala, ekologik holat, topshiriq, masala, yechim, amaliyot darsi.

USE OF ECOLOGICAL PROBLEM PROBLEMS IN ORGANIC CHEMISTRY LESSONS

ABSTRACT

The article provides examples of organic problems in the lessons of organic chemistry and shows students how to solve them, substantiates the essence of environmental education and discusses it with non-traditional issues of organic chemistry. The work carried out in this area is based on the principles of organic chemical-ecological integration education.

Keywords: organic chemistry, problem, ecological situation, task, problem, solution, practical lesson.
