## TECHNOLOGIES OF PREPARING FUTURE TEACHERS FOR THE FORMATION OF CREATIVE ABILITIES IN CHILDREN THROUGH DIDACTIC GAMES

### ABSTRACT

The organization of the educational process in educational institutions is the education of the individual. It can be said that an educator (teacher) is a person who has undergone special training and is not engaged in pedagogical activity as a specialist. It is important to pay attention to the words of the expert. As a non-specialist, everyone is engaged in pedagogical activity, where only the educator knows when and how to carry out pedagogical activity. Can act in accordance with pedagogical laws. Kabi feels responsible for the quality of performance of the duty in the prescribed manner.
