ANNOTATSIYA

O'zbek tilida fe'l mayllari masalasi ancha keng o'rganilgan va bu haqida qator ishlar e'lon qilingan. Shunga qaramasdan bu sohada hali o'z ifodasini topmagan masalalar ham oz emas. Jumladan, boshqa davlatlarda yashayotgan o'zbeklar tilida fe'lning mayl turlari va ularning nomlanishi masalasida tilshunoslarning biror tadqiqot qilganligini kuzatilmaydi. Ushbu maqolada shu haqida ayrim masalalarga to'xtalib o'tamiz.

Kalit so'zlar: Fe'l, zamon, shaxs-son, kategoriya, mayl, habar mayli, shart mayli, buruq-istak mayli.

SOME COMMENTS ON VERB TENSIONS IN AFGHAN UZBEK LANGUAGE

ABSTRACT

The issue of verb tenses in the Uzbek language has been studied extensively and a number of works have been published on this subject. However, there are still many unresolved issues in this area. In particular, linguists in Uzbeks living in other countries have not done any research on the types of verbs and their naming. In this article, we will address some of these issues.

Keywords: Verb, tense, person-number, category, inclination, message inclination, conditional inclination, inflectional inclination.
