**ANNOTATSIYA**

Maqolaning mazmuni shundan iboratki, Fizika va astronomiyani o‘qitishning kasbiy yo‘naltirilishi muammosi hal etishda tayanch va fanga oid kompetensiyalarning ahamiyati ochib berilgan.

**Kalit so‘zlar:** ekologik, fizika, texnika, mehnat, kompetensiya, texnologiya, astronomiya, trigonometric funksiya.

**THE IMPORTANCE OF BASIS AND SCIENCE COMPETENCES IN  
PROFESSIONAL TEACHING OF PHYSICS AND ASTRONOMY IN  
SECONDARY EDUCATION SCHOOLS**

**Abdurazzoq Nizamiddinovich Ernazarov**

Master student of Tashkent State Pedagogical University named after Nizami

**ABSTRACT**

The content of the article is that the importance of basic and scientific competencies in solving the problem of professional orientation of physics and astronomy teaching is revealed.

**Keywords:** ecological, physics, engineering, labor, competence, technology, astronomy, trigonometric function.
