ANNOTATSIYA

Bugungi XXI asr fan va texnikaning rivojlanishi zamonnig shiddat bilan o'sishi ilm fanga bo'lgan talabning oshishiga sabab bo'lmoqda. Aynan ilm-fanga talabning oshishi bevosita tarbiyaning ta'limga bog'liqlik nazariyasini ham kuchaytirmoqda. Ushbu maqolada tarbiyaning ta'lim bilan yaxlitligi, jumladan ekologik tarbiyaning zamonaviy ta'limda tutgan o'rni va metodlari bo'yicha turli olimlarning fikri hamda boshlang'ich ta'limda qo'llanilishi to'g'risida mulohazalar keltirib o'tilgan va tegishli xulosalar chiqarilgan.

Kalit so'zlar: Ekologiya, ekologik tarbiya, pedagogika, zamonaviy ta'lim, metod, kuzatuv metodi, suhbat metodi, savol-javob metodi.

ABSTRACT

In today's XXI st century, the rapid development of science and technology is leading to an increase in demand for science. It is precisely the growing demand for science that reinforces the theory that education is directly related to education. This article provides feedback on the integration of education with education, including the views of various scholars on the role and methods of environmental education in modern education and its application in primary education. conclusions were drawn.

Keywords: Ecology, environmental education, pedagogy, modern education, method, observation method, conversation method, question-answer method.
