magistranti

### ANNOTATSIYA

Ushbu maqolada siqilgan va suyultirilgan gaz uskunalaridan foydalanishda xavfsizlik talablariga to'g'ri amal qilish, gaz uskunalarini o'rnatishda, uning ekspluatatsiyasida xavfsizlik talablariga rioya qilish, avtomobillarga gaz to'ldirish kompressor shahobchalarida foydalaniladigan tez ishdan chiquvchi ayrim detallar foydalanish shartlari haqida tavsiyalar berib o'tilgan.

**Kalit so'zlar:** metan, propan, butan, bosim, gaz uskunalari, gaz ballon, yoqilg'i baki, ta'minot tizimi, gaz hidi, siqilgan va suyultirilgan gaz.

## IMPROVEMENT OF SAFETY REQUIREMENTS IN AUTOMOTIVE GAS FILLING COMPRESSOR STATIONS

**Sarvar Kahramon ugli Utaganov**

Master Student, Jizzakh Polytechnic Institute

### ABSTRACT

This article provides recommendations on the correct observance of safety requirements when operating equipment using compressed and liquefied gas, compliance with safety requirements during the installation of gas equipment, its operation, and the operating conditions of some wearing parts used in automobile gas-filling compressor installations.

**Keywords:** methane, propane, butane, pressure, gas equipment, gas cylinder, fuel tank, supply system, gas smell, compressed and liquefied gas.
