### ABSTRACT

The last years increasingly raised the issue of using modern technologies in the educational process. It is not only new technical means, but also a new forms and methods of teaching, new approach to learning. The main goal that we set for ourselves, using modern technologies in learning a foreign language it's to show how technology can be effectivlly used to important quality of teaching foreign language students, the formation and development of their communicative culture, learning the practical mastery of a foreign language.

This paper aims to highlight the role of using modern technology in teaching English as a second language. It discusses different approaches and techniques which can assist English language students to improve their learning skills by using technology. Among these techniques are online English language learning web sites, computer assisted language learning programs, presentation software, electronic dictionaries, chatting and email messaging programs, listening CD-players, and learning video-rolics.
